

2026

1. **Surname match/mismatch revisited: It may no longer matter for partner choice**

Nakazawa, T., Shinohara, N. & Fukano, Y., 2026 3 月, 於: *PloS one*. 21, 3 March, e0343333.

2025

2. **When can multiple parasites with complex life cycles coexist under conflicts of host manipulation?**

Wang, C. W., Chen, H. W., Sato, T. & Nakazawa, T., 2025 12 月, 於: *International Journal for Parasitology*. 55, 14, p. 771-781 11 p.

2024

3. **A pollinator crisis can decrease plant abundance despite pollinators being herbivores at the larval stage**

Lee, Y. D., Yokoi, T. & Nakazawa, T., 2024 12 月, 於: *Scientific reports*. 14, 1, 18523.

4. **When is lethal deceptive pollination maintained? A population dynamics approach**

Nakazawa, T., Matsumoto, T. K. & Katsuhara, K. R., 2024 10 月 1, 於: *Annals of Botany*. 134, 4, p. 665-682 18 p.

2023

5. **Author Correction: Pollinator sex matters in competition and coexistence of co-flowering plants (Scientific Reports, (2023), 13, 1, (4497), 10.1038/s41598-023-31671-z)**

Nakazawa, T. & Kishi, S., 2023 12 月, 於: *Scientific reports*. 13, 1, 18942.

6. **Pollinator sex matters in competition and coexistence of co-flowering plants**

- Nakazawa, T. & Kishi, S., 2023 12 月, 於: *Scientific reports*. 13, 1, 4497.
7. **When to help juveniles, adults, or both: analyzing the evolutionary models of stage-structured mutualism**
Nakazawa, T., Katayama, N., Utsumi, S., Yamawo, A. & Yamamichi, M., 2023, 於: *Frontiers in Ecology and Evolution*. 11, 1138138.
8. **Why sex matters in phenological research**
Nakazawa, T., Hsu, Y. H. & Chen, I. C., 2023 8 月, 於: *Oikos*. 2023, 8, e09808.
-

2020

9. **A perspective on stage-structured mutualism and its community consequences**
Nakazawa, T., 2020 3 月 1, 於: *Oikos*. 129, 3, p. 297-310 14 p.
10. **Idea paper: Incorporating sexual differences in dispersal decision making into metapopulation theory**
Chou, C. C. & Nakazawa, T., 2020 7 月 1, 於: *Ecological Research*. 35, 4, p. 591-594 4 p.
11. **Social signatures in echolocation calls of a leaf-roosting bat, *Kerivoula furva***
Kao, M. T., Liu, J. N., Cheng, H. C. & Nakazawa, T., 2020 7 月 3, 於: *Bioacoustics*. 29, 4, p. 461-480 20 p.
12. **Species interaction: Revisiting its terminology and concept**
Nakazawa, T., 2020 11 月, 於: *Ecological Research*. 35, 6, p. 1106-1113 8 p.
13. **Stage-Specific Parasitism by a Mutualistic Partner Can Increase the Host Abundance**
Nakazawa, T. & Katayama, N., 2020 11 月 12, 於: *Frontiers in Ecology and Evolution*. 8, 602675.

2018

14. **Ontogenetic antagonism–mutualism coupling: perspectives on resilience of stage-structured communities**
Ke, P. J. & Nakazawa, T., 2018 3 月, 於: *Oikos*. 127, 3, p. 353-363 11 p.
 15. **Spatial genetic structure and body size divergence in endangered *Gymnogobius isaza* in ancient Lake Biwa**
Nakazawa, T., Liu, S. Y. V., Sakai, Y., Araki, K. S., Tsai, C. H. & Okuda, N., 2018 7 月 4, 於: *Mitochondrial DNA Part A: DNA Mapping, Sequencing, and Analysis*. 29, 5, p. 756-764 9 p.
-

2017

16. **Individual interaction data are required in community ecology: a conceptual review of the predator–prey mass ratio and more**
Nakazawa, T., 2017 1 月 1, 於: *Ecological Research*. 32, 1, p. 5-12 8 p.
 17. **Warming impact on herbivore population composition affects top-down control by predators**
Wang, Y. J., Nakazawa, T. & Ho, C. K., 2017 12 月 1, 於: *Scientific reports*. 7, 1, 941.
-

2016

18. **Incorporating an ontogenetic perspective into evolutionary theory of sexual size dimorphism**
Chou, C. C., Iwasa, Y. & Nakazawa, T., 2016 2 月 1, 於: *Evolution*. 70, 2, p. 369-384 16 p.
19. **Predator–prey mass ratio revisited: does preference of relative prey body size depend on individual predator size?**
Tsai, C. H., Hsieh, C. H. & Nakazawa, T., 2016 12 月 1, 於: *Functional Ecology*. 30, 12, p. 1979-1987 9 p.
20. **Two-species metacommunity dynamics mediated by habitat preference**

Nakazawa, T. & Huang, C. G., 2016 9 月 1, 於: *Oikos*. 125, 9, p. 1334-1341 8 p.

2015

21. **Individual species-area relationship of woody plant communities in a heterogeneous subtropical monsoon rainforest**

Tsai, C. H., Lin, Y. C., Wiegand, T., Nakazawa, T., Su, S. H., Hsieh, C. H. & Ding, T. S., 2015 4 月 17, 於: *PloS one*. 10, 4, e0124539.

22. **Introducing stage-specific spatial distribution into the Levins metapopulation model**

Nakazawa, T., 2015, 於: *Scientific reports*. 5, 7871.

23. **Ontogenetic niche shifts matter in community ecology: a review and future perspectives**

Nakazawa, T., 2015 4 月 27, 於: *Population Ecology*. 57, 2, p. 347-354 8 p.

2013

24. **Analysis of species coexistence co-mediated by resource competition and reproductive interference**

Kishi, S. & Nakazawa, T., 2013 4 月, 於: *Population Ecology*. 55, 2, p. 305-313 9 p.

25. **Predator-prey body size relationships when predators can consume prey larger than themselves**

Nakazawa, T., Ohba, S. Y. & Ushio, M., 2013 6 月 23, 於: *Biology Letters*. 9, 3, 20121193.

2012

26. **A perspective on match/mismatch of phenology in community contexts**

Nakazawa, T. & Doi, H., 2012 4 月, 於: *Oikos*. 121, 4, p. 489-495 7 p.

27. **Development of nine markers and characterization of the microsatellite loci in the endangered *Gymnogobius isaza* (Gobiidae)**
Araki, K. S., Nakazawa, T., Kawakita, A., Kudoh, H. & Okuda, N., 2012 5 月, 於: *International Journal of Molecular Sciences*. 13, 5, p. 5700-5705 6 p.
28. **Long-Term Changes in the Diet of *Gymnogobius isaza* from Lake Biwa, Japan: Effects of Body Size and Environmental Prey Availability**
Briones, J. C., Tsai, C. H., Nakazawa, T., Sakai, Y., Papa, R. D. S., Hsieh, C. H. & Okuda, N., 2012 12 月 28, 於: *PloS one*. 7, 12, e53167.
29. **Model analysis for plant disease dynamics co-mediated by herbivory and herbivore-borne phytopathogens**
Nakazawa, T., Yamanaka, T. & Urano, S., 2012 8 月 23, 於: *Biology Letters*. 8, 4, p. 685-688 4 p.

2011

30. **Alternative stable states generated by ontogenetic niche shift in the presence of multiple resource use**
Nakazawa, T., 2011, 於: *PloS one*. 6, 2, e14667.
31. **Annual variations in length-weight relationship of *Gymnogobius isaza* (Tanaka, 1916) from Lake Biwa, Japan**
Nakazawa, T., Tsai, C. H., Ishida, N. & Kato, M., 2011 8 月, 於: *Journal of Applied Ichthyology*. 27, 4, p. 1135-1136 2 p.
32. **Dormancy of predators dependent on the rate of variation in prey density**
Kuwamura, M. & Nakazawa, T., 2011, 於: *SIAM Journal on Applied Mathematics*. 71, 1, p. 169-179 11 p.
33. **Implications of resting eggs of zooplankton for the paradox of enrichment**
Nakazawa, T., Kuwamura, M. & Yamamura, N., 2011 4 月, 於: *Population Ecology*. 53, 2, p. 341-350 10 p.
34. **Ontogenetic niche shift, food-web coupling, and alternative stable states**
Nakazawa, T., 2011 11 月, 於: *Theoretical Ecology*. 4, 4, p. 479-494 16 p.
35. **Scale Dependence of Predator-Prey Mass Ratio. Determinants and**

Applications

Nakazawa, T., Ushio, M. & Kondoh, M., 2011, 於: *Advances in Ecological Research*. Academic Press Inc., p. 269-302 34 p. (Advances in Ecological Research; 卷 45).

36. **The ontogenetic stoichiometric bottleneck stabilizes herbivore-autotroph dynamics**

Nakazawa, T., 2011 1 月, 於: *Ecological Research*. 26, 1, p. 209-216 8 p.

2010

37. **Fishing effects on age and spatial structures undermine population stability of fishes**

Hsieh, C. H., Yamauchi, A., Nakazawa, T. & Wang, W. F., 2010, 於: *Aquatic Sciences*. 72, 2, p. 165-178 14 p.

38. **Influence of predator-specific defense adaptation on intraguild predation**

Nakazawa, T., Miki, T. & Namba, T., 2010 3 月, 於: *Oikos*. 119, 3, p. 418-427 10 p.

39. **Is the relationship between body size and trophic niche position time-invariant in a predatory fish? First stable isotope evidence**

Nakazawa, T., Sakai, Y., Hsieh, C. H., Koitabashi, T., Tayasu, I., Yamamura, N. & Okuda, N., 2010 2 月 9, 於: *PloS one*. 5, 2, e9120.

40. **Sex in a material world: Why the study of sexual reproduction and sex-specific traits should become more nutritionally-explicit**

Morehouse, N. I., Nakazawa, T., Booher, C. M., Jeyasingh, P. D. & Hall, M. D., 2010 5 月, 於: *Oikos*. 119, 5, p. 766-778 13 p.

2009

41. **A minimum model of prey-predator system with dormancy of predators and the paradox of enrichment**

Kuwamura, M., Nakazawa, T. & Ogawa, T., 2009 3 月, 於: *Journal of Mathematical Biology*. 58, 3, p. 459-479 21 p.

42. **Resource-dependent reproductive adjustment and the stability of consumer-resource dynamics**

Nakazawa, T., Ohgushi, T. & Yamamura, N., 2009 1 月, 於: *Population Ecology*. 51, 1, p. 105-113 9 p.

43. **Theoretical considerations for the maintenance of interspecific brood care by a Nicaraguan cichlid fish: Behavioral plasticity and spatial structure**

Nakazawa, T. & Yamamura, N., 2009 1 月, 於: *Journal of Ethology*. 27, 1, p. 67-73 7 p.

2008

44. **Functional consequences of viral impacts on bacterial communities: A food-web model analysis**

Miki, T., Nakazawa, T., Yokokawa, T. & Nagata, T., 2008 6 月, 於: *Freshwater Biology*. 53, 6, p. 1142-1153 12 p.

2007

45. **Breeding migration and population stability**

Nakazawa, T. & Yamamura, N., 2007 4 月, 於: *Population Ecology*. 49, 2, p. 101-113 13 p.

46. **Larger body size with higher predation rate**

Nakazawa, T., Ishida, N., Kato, M. & Yamamura, N., 2007 9 月, 於: *Ecology of Freshwater Fish*. 16, 3, p. 362-372 11 p.

2006

47. **Community structure and stability analysis for intraguild interactions among host, parasitoid, and predator**

Nakazawa, T. & Yamamura, N., 2006 4 月, 於: *Population Ecology*. 48, 2, p. 139-149 11 p.
